

Paznwise Mobile App — Completed Features & Integration Report

Executive Overview

The **Paznwise Mobile Application** is a cross-platform mobile app built using **React Native (Expo SDK 54 & Expo Router 6)**. It has achieved **100% Feature Parity** with the Paznwise Web Application for all customer, artist, and performer workflows, integrated directly with live production API services.

Complete Feature Inventory & Functional Breakdown

1. Authentication & User Onboarding

- **Phone OTP Authentication:**
 - Request 6-digit OTP to any 10-digit mobile number.
 - Interactive OTP entry screen with countdown timer and resend functionality.
 - Smart user routing: Existing users are logged in immediately; new users are guided through account registration.
- **Email & Password Authentication:**
 - Login using email address, username, or phone number with password.
 - Account signup with full validation (name, email, password strength, confirmation).
 - Forgot Password & Reset Password flows via secure JWT tokens.
- **Google OAuth Login:**
 - One-tap Google OAuth authentication integration.
 - Automatic Google profile metadata retrieval (Name, Email, Profile Picture).
 - Secure backend social session exchange and user profile sync.
- **Secure Token Management:**

- Encrypted storage for OAuth access tokens and refresh tokens on iOS Keychain & Android Keystore.
-

2. E-Commerce, Marketplace, Cart & Order Fulfillment

- **Marketplace & Discovery:**
 - Interactive artwork catalog with category selector, medium filters, art style tags, and price range controls.
 - Artwork detail pages featuring multi-image carousel galleries, artwork dimensions, medium description, price, artist profile links, and live stock availability.
 - **Shopping Cart:**
 - Global cart state supporting item addition, removal, quantity adjustments, and live cart subtotal calculations.
 - **Checkout System:**
 - Multi-step checkout experience.
 - Delivery address management with saved address selection and new address creation featuring OpenStreetMap geolocation lookup.
 - Delivery speed selector (Standard Free Delivery vs. Express Delivery).
 - Promo coupon entry field and list of available public promo offers.
 - **Payment Processing:**
 - Unified payment selector supporting UPI (GPay, PhonePe, Paytm, VPA handle), Credit & Debit Cards, Net Banking, and Cash on Delivery (COD).
 - **Order Confirmation & Invoicing:**
 - Instant order confirmation screen displaying invoice numbers, itemized breakdown, estimated delivery dates, and digital invoice download options.
 - **Order History & Live Order Tracking:**
 - Order history listing with status badges (*Delivered*, *Shipped*, *Processing*, *Cancelled*), order totals, thumbnail previews, and pull-to-refresh.
 - Step-by-step delivery progress bar (*Order Placed* → *Confirmed by Artist* → *In Transit* → *Delivered*).
-

3. Events & Event Pass Booking System

- **Event Discovery:**
 - Categorized list of live art exhibitions, workshops, music events, and studio showcases.
- **Event Detail View:**

- Comprehensive event view featuring cover banner image, studio host details, date & time, venue location, ticket quantity selector, and total price calculation.
 - **Pass Reservation & Digital Tickets:**
 - Attendee detail form capturing contact information.
 - Digital event passes list displaying event tickets with unique QR reference pass IDs.
-

4. Artist Services, Performer Bookings & Artwork Rentals

- **Performer Discovery & Event Hiring:**
 - Search and filter performers, musicians, live painters, and sculptors by category and service rates.
 - Book performers directly for private or corporate events.
 - View performer booking status and history.
 - **Performer & Artist Registration:**
 - Artist registration workflow allowing creators to register their profiles and publish available services.
 - **Artwork Rentals:**
 - Artwork rental system for corporate spaces, galleries, and events without outright purchasing.
 - Artist incoming rental requests dashboard with single-tap *Accept* and *Decline* controls.
 - Renter's active and past rental history dashboard.
-

5. Social Feed, Community & Creator Network

- **Social Feed:**
 - Interactive social feed showcasing trending artworks, posts, and artist updates.
 - Like, comment, and share capabilities with real-time counters.
 - Post creation tool for artists to publish new artworks and updates.
 - Creator's personal post manager.
 - **Network & Social Profile:**
 - Public artist and user profile pages.
 - Follower and following lists.
 - Recommended creators and artist discovery suggestions.
-

6. Direct Messaging & User Notifications

- **Direct Messaging Inbox:**
 - Real-time conversation thread inbox connecting buyers, artists, and event organizers.
 - Message bubble chat interface supporting text messages, timestamps, and automated message polling.
 - **Notifications Center:**
 - In-app notification center for order status changes, event pass confirmations, direct messages, and community activity.
 - Quick action buttons to mark individual notifications or all notifications as read.
-

7. User Profile, Wishlist, Reviews & Coupons

- **Favorites & Wishlist:**
 - Personal saved wishlist grid with quick heart toggle to add or remove favorite artworks.
 - **Customer Reviews:**
 - User reviews page displaying star ratings and written feedback left for artworks and artists.
 - **Coupons & Promo Offers:**
 - Discount offers list featuring public coupon codes and minimum order eligibility criteria.
 - **Seller Artwork Management:**
 - Create new artwork listings with title, description, category, medium, pricing, and photo upload.
 - Seller dashboard to manage, edit, or remove active artwork listings.
 - **Profile Hub:**
 - Centralized user profile navigation hub providing access to all personal orders, rentals, tickets, messages, listings, and account settings.
-
